## Senior Application Security Engineer: VA|PT & GRC

Mumbai, 400070 • (+91) 9619739550 • nadeemmansoori05@gmail.com• LinkedIn: [Click Here](#)

- ▶ **Senior Application Security Engineer** specializing in VAPT and application security, driving vulnerability management, ensuring regulatory compliance, and strengthening organizational cybersecurity posture.
- ▶ Senior Application Security Engineer, Experience of 3+ Years in VA|PT & GRC.

## PROFESSIONAL EXPERIENCE

### ZI Systech, Mumbai

#### *Senior Application Security Engineer*

**05/2024 - Present**

**Senior Application Security Engineer** specializing in Red Teaming and VAPT & GRC. Proven track record in enhancing security posture, ensuring compliance, and safeguarding organizational assets in dynamic environments.

#### **My key achievements include:**

- Led the Security Team in executing VAPT for Web, Mobile, and API applications, ensuring timely remediation and continuous security improvement.
- Led the organization's GRC certification initiatives, achieving compliance with ISO 27001, GDPR, PCI-DSS, FERPA, SOC 2, and HIPAA frameworks.
- Performed Active Directory Pentesting, Wireless Pentesting, and Cloud Security Assessments, ensuring alignment with industry standards.
- Oversaw SAST, DAST, Source Code Review, and SCA using tools like BlackDuck and made an in-house AI-based solutions for improved efficiency.
- Directed Azure DevOps operations for vulnerability tracking, bug management, and production issue resolution.
- Executed Ransomware and Phishing Simulation Drills, reporting metrics to the CISO/CTO to enhance awareness and incident readiness.
- Maintained Security KPIs, risk registers, and audit evidence to support compliance and certification audits.
- Conducted Vulnerability Assessments of endpoints, servers, databases, and networks using Qualys, Nessus, Scuba, and Microsoft Defender.
- Delivered Security Awareness Programs across departments, building a culture of security and compliance.
- Utilized advanced tools — Burp Suite, Postman, Nmap, Metasploit, SQLmap, Kali Linux, Wireshark, Hydra, Gobuster, Dirbuster, Nikto, etc. — to strengthen offensive and defensive capabilities.

### CipherBeam Technologies LLP, Mumbai

#### *Information & Cyber Security Consultant*

**05/2022 – 03/2024**

**Information & Cyber Security Consultant** with expertise in VAPT, ISO 27001, and GRC, driving security improvements, compliance, and protection of organizational assets.

#### **My key achievements include:**

- Led VAPT on Web, Mobile, and API applications, collaborating with developers for timely remediation.
- Skilled in static & dynamic testing of Android apps using OWASP Top 10 methodology.
- Conducted vulnerability assessments across endpoints, servers, databases, and networks using Qualys, Nessus, and Scuba.
- Created and maintained VAPT trackers, ensuring closure of findings within defined TAT.
- Experienced in reconnaissance, network exploitation, and firewall testing.
- Hands-on with tools like Burp Suite, Postman, Nmap, Metasploit, SQLmap, Nessus, Wireshark, Hydra, and more.
- Performed Cloud Security Assessments and Firewall Rule-Based Reviews.
- Managed CrowdStrike, Zscaler, and ITAM platforms for robust endpoint protection.
- Implemented endpoint security via BitLocker encryption and Intune management.
- Oversaw SecOps operations for 2000+ endpoints, ensuring compliance, threat visibility, and protection.
- Led vCISO role, driving GRC initiatives and achieving compliance with ISO, RBI, SEBI guidelines.
